

BREST REGION

№	Location	Approximate land plot area, ha	Possible ways of use	Infrastructure	Encumbrances	Preliminary cadastral value, thousand USD
Brest town						
1	at the intersection of Moskovskaya and Pionerskaya streets	up to 1,5	construction and maintenance of a group of buildings for accomodation, retail and leisure, administrative and office purposes, and the use as a hotel	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	2296,65
2	the quarter within the confines of Kizhevatova, Sportivnaya and Respublikanskaya streets	3	construction and maintenance of a group of buildings for accomodation, retail and leisure, administrative and office purposes, and the use as a hotel	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	5416,5
3	the district within the confines of Masherova ave., 48, 50, Ostrovskogo and Sovetskaya streets	up to 1	construction and maintenance of a multifunctional center	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	2007,7
4	39, Dzerzhinskogo str.; 96,98,100,102/1, Sovetskaya str.	0,5	construction of a building for administrative and retail purposes, with possibility of developing residential accomodation	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	974,95
5	Lutskaya str.	up to 1	construction and maintenance of a bathing center (Russian bath)	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	no information
6	Gavrilova str.	0,5	reconstruction of sports and recreation center (leisure component is to be constructed)	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	5,27
7	Brest, on the cross of Writer Smirnov St. and the highway M1/E30	6	facility construction of roadside service and logistic center	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	1512,6
8	Brest, the quarter limited Mickiewicz St., Komsomolskaya St., Sovietskaya St. and Pushkinskaya St.	0,7	construction and servicing of administrative and business, residential and mall center.	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	1430192,75
9	Brest, in the area of the Kamenetsky roading in the territory of water intake "Northern" the 3rd rise	2,7	construction of the logistic center	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	no information
10	Brest, Respubliki Avenue	25	construction and service of a multipurpose object	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	no information
Baranovichi town						
11	Badaka str.	0,8	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, distance to the Badaka street is about 160 m	abscent	137,76

12	Badaka str.	0,8	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, distance to the Badaka street is about 100 m	abscent	137,76
13	Badaka str.	0,8	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, distance to the Badaka street is about 50 m	abscent	137,76
14	Badaka str.	0,8	construction of operation support facilities at an industrial enterprise of the fifth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, driveway	abscent	137,76
15	Badaka str.	0,8	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, distance to the Badaka street is about 200 m	abscent	137,76
16	Badaka str.	2,4	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	three cable power lines (along the Badaka street), medium pressure gas pipeline ø219 mm, water pipeline ø100 mm and ø200 mm, sanitary sewer system ø500 mm, distance to the Badaka street is about 150 m; there is a railway to the west of the plot, construction of new approach lines is possible	abscent	413,28
17	Vostochniy poselok str.	1,3	construction of a machine building plant	power transmission line; water pipeline ø200 mm and high pressure gas pipeline ø500 mm (along the Frolenkova street); water pipeline ø500 mm (along the Kabushkina str.); driveway by the current road network, construction of a driveway to the Churilina str. 450 m in length is possible	abscent	350,61
18	Voikova, Smolenskaya and Sverdlova streets	1,9	construction of a sports and recreation center (current low-rise accommodations and administrative buildings are subject to removal; planting area is not less than 25% of the territory)	electricity line; water pipeline ø150 mm (along the Voikova str.), water pipeline ø200 mm (along the Baranova str.), water pipeline ø150 mm and ø400 mm (along the Smolenskaya str.), water pipeline ø100 mm (along the Timiriazeva str.); sewer system ø1000 mm and ø500 mm (along the Baranova str.), medium pressure gas pipeline ø300 mm; driveway	abscent	1288,39

19	Voikova, Timiryazeva and Sverdlova streets	2,5	construction of a multifunctional entertaining center (current low-rise accommodations and administrative buildings are subject to removal; planting area is not less than 25% of the territory)	there is an electricity line (Voikova and Sverdlova streets), 3 power lines on the plot; water pipeline ø150 mm (along Voikova str.), water pipelines ø150 mm and ø400 mm (along the Smolenskaya str.), water pipeline ø100 mm (along the Timiriazeva str.); sewer system ø1000 mm and ø500 mm (along the Baranova str.); low pressure gas pipeline ø114 mm (along the Timiriazeva str.); driveway	abscent	1683,25
20	Sovetskiy ave.	0,5	culture and entertainment center (number of stories - up to 3, planting area is not less than 25%)	sewer system ø300 mm and water pipelines ø800 mm (along the Sovetskogo ave.), low pressure gas pipeline ø108 mm at a distance of 200 m; cabel power line - eastern side of the plot. driveway	abscent	269,3
21	Sovetskiy ave.	1,5 (building line is to be 5 m from the red line of Sovetskogo ave.)	construction of a multifunctional building for a business center (current low-rise accommodations are subject to removal)	sewer system ø200 mm, water pipeline ø20 mm, low pressure gas pipeline ø50 mm and ø114 mm; low pressure (ø100 mm) and medium pressure (ø500) mm gas pipelines (along the Shevchenko str.); driveway	abscent	649,2
22	Sovetskiy ave.	1,2 (1 of which - for area development)	construction of a hotel complex (current low-rise accommodations are subject to removal)	electricity line and low pressure gas pipeline ø114 mm (along the Dubrovskogo lane); driveway	abscent	497,72
23	Sovetskaja, Mitskevicha and Gagarina streets	0,7	construction of elite housing, a shopping center, a hotel, public catering facilities (a bar, restaurant, café); current accommodations and accessory buildings removal	electricity lines and low pressure gas pipeline ø100 mm; low pressure gas pipelines ø89 mm (along the Gagarina str.); pipeline ø150 mm (along the Sovetskaya, gagarina and Mitskevicha streets); sewer system ø150 mm (along the Mitskevicha str.), ø200 mm (along the Gagarina str.); driveway	abscent	491,66
24	Sovetskaya, Baranova, Dzerzhinskogo and Pushkina streets	2,1	construction of an elite house of enhanced comfort and with public service facilities (current accommodations, car fleet buildings and constructions are subject to removal)	electricity line (along the Pushkina str.); sewer system ø250 mm, water pipeline ø200 mm and medium pressure gas pipeline ø250 mm (along the Sovetskaya str.); water pipeline ø150 mm (along the Baranova str.); driveway	abscent	1485,12
25	Slonimskoe Shosse str.	5	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	At a distance of about 20m is pressurized sewer ø200 (south-eastern side of the plot), a distance of about 30m and 70m is heating main ø100 and plumbing ø150 (west side of the plot), along the western side of the plot takes place 10 kV power network (100m - TA), a distance of about 110 m diameter water pipe network passes. Entrance to property provided by the existing street network ul.Slonimskoe highway	abscent	942

26	Francis Scorina St., 41	4,0	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	It is necessary to install two cells of 10 kV with switching devices on PS 110 For a construction of production base of industrial enterprise of the fourth class quarter "Zapadnaya", to lay two KL-10 kV, RP construction (range – near 3.6km). It is necessary to lay network of a water supply system about 2 km long on the Francis Scorina Street (from network of a water supply system of 200 mm on Professionalnaya St. to network of a water supply system of 150 mm on Brestskaya St., 295). Range about 2 km. Gas pipeline of average pressure 63 of mm upon the lane 1 Suburban and lane 2 Suburban, gas pipeline of average pressure 122 of mm and	abscent	468
27	Brestskaya St., 315	7,1	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	It is necessary to install two cells of 10 kV with switching devices on PS 110 For a construction of production base of industrial enterprise of the fourth class quarter "Zapadnaya", to lay two KL-10 kV, RP construction (range – near 3.6km). It is necessary to lay network of a water supply system about 2 km long on the Francis Scorina Street (from network of a water supply system of 200 mm on Professionalnaya St. to network of a water supply system of 150 mm on Brestskaya St., 295). Range about 2 km. Gas pipeline of average pressure 63 of mm upon the lane 1 Suburban and lane 2 Suburban, gas pipeline of average pressure 122 of mm and	abscent	830,7
28	Fabrichnaya St.	6,7	construction of operation support facilities at an industrial enterprise of the fourth class (by sanitary classification)	It is necessary to coordinate connection to networks of 10 kV (0,4 kV) with RUP "BPHO", from networks of a power supply system – it is necessary to lay 2 KL-10 kV from PS of 110 kV of HBK with the construction of TP. It is necessary to lay the area of water supply system about 470 m long network of a water supply system of 200 mm on the Gayeva St. the network of a water supply system of 200 mm on Masherov Avenue (about 470 meters from the land plot). It is necessary to design and lay the area of sewerage network about 700 m long from the area to the collector of 200 mm at. Gayevy (700 meters from the land plot). The gas pipeline of average	abscent	1871,98
29	Kommunisticheskaya St.	0,3	For the construction of the facility on rendering services	the asphalted street, water supply, power supply, gas supply	abscent	97,375

30	Zelenaya str, 7	0,37	For a placement of the public building (hotel 2-4 floors) with a condition of land seizure in order to establish it by the legislation and demolition, located on them, an individual house on Zelyonaya St., 5, and a garage on Zelyonaya St. 9	the asphalted street, water supply, power supply, gas supply	abscent	236,652
31	Slonimskoye Highway St., 5A	3,7	for allocation of a production area and warehouses of the logistic center	the asphalted street, water supply, power supply, gas supply	abscent	408,85
Baranovichi district						
32	Velikoloubskiy village council, Rusino agro-town, 7, Solnechniy lane	0,3	a retail facility construction	road, electricity transmission line, all the utilities are in close proximity	abscent	3,338
Bereza district						
33	the Striginsky village council, to the west of the village Peresudovichi	15	mixed trade industry	electricity lines 10 kV and 110 kV, north side of the plot, low pressure gas pipeline (ø63 mm) and cable power line (along the motor road to the Olshevo village); water pipeline ø150 mm (100 m to the east), 200 m south-east, storm water sewage (ø900 mm), transport connection: motor road	abscent	0,44
Brest district						
34	0.1 km to the east of Leplevka village	0,5	for construction of operation support facilities	electricity line 10 kV, unsurfaced road	abscent	no information
35	0.5 km to the north-east of the township Domachevo	1	for construction of public and business facilities	electricity line 10 kV, unsurfaced road	abscent	no information
Gantsevichi district						
36	Gantsevichi town, 65R, Matrosova str.	0,4	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	43,5
37	Gantsevichi town, 65C, Matrosova str.	0,44	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	47,87
38	Gantsevichi town, 8, Promyshlennaya str.	0,2	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	11,7
39	Gantsevichi town, 10, Promyshlennaya str.	0,2	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	11,7
40	Gantsevichi town, 12, Promyshlennaya str.	0,2	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	11,7
41	Gantsevichi town, Stroiteley str.,6	0,4	for construction and service of the trading facility	paved street, water supply, electricity and gas supply	abscent	64,6
42	Gantsevichi town, 14, Promyshlennaya str.	1,1	manufacturing facility	paved street, water supply, electricity and gas supply	abscent	57,95
Drogichin district						
43	intersection of roads: border with Russia – Gomel – Kobrin (M10) and motor road Drogichin–Bereza (R84)	0,2	roadside service facility	possibility of connection to power transmission line; asphalt driveway is available; proximity of international and republican subordination roads	abscent	1,029
44	Drogichin, 204, Lenin str. (Republican Unitary Enterprise "Ekzon-Glyukoza" area)	3,15	industrial facility	possibility of connection to power transmission line, water pipeline, gas pipeline, sewerage	abscent	222,74
45	Nagornoe village, Zheleznodorozhnaya str.	1,1	industrial facility	possibility of connection to power transmission line, water pipeline, gas pipeline, sewerage	abscent	8,4

46	Drogichin, Lenin St. (area of Open JSC Ekzon)	0,5	industrial facility (production of medicines)	possibility of connection to power transmission line, water pipeline, gas pipeline, sewerage	abscent	35,8
47	Drogochin, 9 th of May str.	0,99	construction and maintenance of a building for services provision and trade in non-food group of goods	possibility of connection to the operating utilities (gas, heat, water and electricity supply, sewerage, driveway to the plot)	abscent	192,8
Zhabinka district						
48	to the south of Dyatly village, Rakitnitskiy village council	3,9	production facility	asphalt motor road, electricity and gas	abscent	9,4
49	to the west of Yezhyki village, Leninskiy village council	2,5	production facility	gravel motor road, 1.5 km to the highway M-1/E30, electricity supply	abscent	5,75
50	Zhabinka Korotkina str.	1,6	production facility	paved street, railway, electricity supply and gas	abscent	14,69
51	0.3 km to the west of Zhabinka, along the road Zhabinka-Rachki	3,5	production facility	gravel motor road, railway, electricity and gas supply	abscent	32,55
Ivanovo district						
52	Ivanovo town, Poleyaya str. (adjoins the OJSC "Belsolod" area)	2	for allocation of industrial and service provision facilities	connection to electricity and water supply is possible; adjoins the asphalt road	abscent	207,2
Ivatsevich district						
53	Ivatsevichi town, 1, Zagorodnaya str.	1	construction of a manufacturing facility (sanitary protection zone, 50 m)	medium pressure gas pipeline (along the Zagorodnaya str.), water pipeline Ø160 mm (polyethylene); cable and overhead power transmission lines 10 kV (at a distance of 100 m); railway line adjoins the plot; driveway	abscent	123,3
54	Ivatsevichi town, Zagorodnaya str.	1,5	construction of a manufacturing facility (sanitary protection zone, 50 m)	cable power lines 10 kV, overhead power transmission line 10 kV; medium pressure gas pipeline; water pipeline Ø160 mm (polyethylene); water pipeline and sewerage of "Ivatsevichdrev" OJSC are located in close proximity; driveway	abscent	151,05
55	Ivatsevichi town, Zavodskaya str.	1	construction of a manufacturing facility (sanitary protection zone, 50 m)	cable power line 10 kV, low and medium pressure gas pipeline, water pipeline Ø160 mm (polyethylene) (along the Zagorodnaya str.); water pipeline and sewerage of "Ekran" OJSC are located in close proximity; driveway	abscent	127,8
Kamenets district						
56	southeast outskirts of Kamenets town	5	construction of an industrial facility	500 m to the northeast of Dzerzhinskogo street; road, power transmission line	abscent	218,5
57	to the southwest of Melniki village	8,4	agri-eco-tourist center	50 m; road, power transmission line	abscent	22,635
58	to the northeast of Vysokoe town	3	construction of an industrial facility	50 m; road, power transmission line	abscent	10,2
Kobrin district						
59	to the west of mobile mechanical division No. 57 at Proletarskaya str., Kobrin town	3	construction of a manufacturing facility	possibility of installing electricity, water and gas supply, asphalt driveway, railway Brest-Gomel is in close proximity	abscent	no information

60	Kobrin town, Severnaya str.	6	construction of a manufacturing facility	possibility of installing electricity, water and gas supply, asphalt driveway, railway Brest-Gomel is in close proximity	abscent	no information
61	Kobrin town, Kalinina str.	0,8	construction of a manufacturing facility	possibility of installing electricity, water and gas supply, asphalt driveway	abscent	no information
62	1.5 km to the south of Borisovo village	10	construction and maintenance of a logistics center	possibility of installing electricity, gas supply, asphalt driveway, motor road Kobrin-Divin-border with Ukraine is in close proximity	abscent	no information
Louninets district						
63	Mikashevichi town, 14, Sadovaya str.	0,08	construction of a touch-free car wash	possibility of connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot)	abscent	4,5
Lyakhovichi district						
64	Lyakhovichi, 1, Vishnevaya str. (building estate "Potapovichi")	0,4	a retail facility construction	utilities under construction (electricity, water pipeline, gas), asphalt driveway	abscent	89,24
65	Lyakhovichi, 15, Trudovaya str. (behind the production facilities of State Unitary Manufacturing Enterprise "Lyakhovichskoe PMS" (PMS - plant for reclamation works)	2,5	allocation of a manufacturing facility	electricity; driveway by the existent road network (asphalt and unsurfaced road); 0.2 km from the railway	abscent	193,75
66	Lyakhovichi, 144, Oktyabrskaya str. (behind the territory of CJSC "Lyakhovichskiy Plastic-to-Metal Seal Plant")	2	allocation of a manufacturing facility	electricity; driveway by the existent road network (asphalt and unsurfaced road); 0.3 km from the railway	abscent	151,4
67	Rusinovichi agro-town	3	allocation of a logistics center, a manufacturing facility	electricity; asphalt driveway; 0.1 km from the railway	abscent	11,4
Malorita district						
68	50 m to the south of Zburazh village (former brick plant)	3,2	allocation of a manufacturing facility	water supply from the township, possibility of making a well; gas supply from Zburazh village; electricity is to be supplied from the Zburazh village; driveway to the plot – asphalt road of the village, 150 m – construction of a driveway	abscent	0,31
69	70 m to the west of Antonovo village (former farm)	7,5	allocation of a manufacturing facility	water supply – not available, making a well is necessary; gas supply – not available, electricity is to be supplied from the Antonovo village; driveway to the plot – gravel motor road	abscent	0,13
70	0,6 km to the southwest Velikorita, near the existing MTF APO Rita	2,8	allocation of a manufacturing facility	water supply – the well of APO Rita, gas supply – isn't present (gas in ar. Velikorita), power supply – TP APO Rita, an entrance to the area – existing gravel motoway	abscent	0,1
71	2 km to the east of Soushitnitsa village (former manufacturing area)	11,6	allocation of a manufacturing facility	water, gas and electricity supply are not available – input from the Soushitnitsa village is possible; driveway to the plot – a motor road with asphalt and gravel covering	abscent	0,13

72	Sovetskaya St. of 131/1 Malorita town	0,3	allocation of a manufacturing facility	water supply - on Sovetskaya St., gas supply - on Sovetskaya St., power supply - on Sovetskaya St., an entrance to the site - adjoins Sovetskaya St.	abscent	5,05
73	Malorita town of the 8th March str. (opposite to base)	0,3	allocation of a manufacturing facility	Water supply, gas supply, power supply, entrance to the area.	abscent	6,67
Pinsk city						
74	Zoi Kosmodemyanskoy str.	3,5	total reconstruction of a playground, construction of a children entertainment center and public catering and commerce facilities	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	3392,9
75	69, Zholtovskogo ave.	2,1	construction of a supermarket with an area of up to 5000 m ²	connection to the operating utilities (gas, water and electricity supply, driveway to the plot) is possible	abscent	509
76	8, Korzha str.	0,14	construction of a multifunctional business center with retail facilities and a hotel	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	143,9
77	within Chernyakhovskogo, Zheleznodorozhnaya and Medovaya streets	0,64	construction of a multifunctional business center with retail facilities and a hotel	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	620,4
78	"Radouzhniy" building estate	0,2	construction of a multistorey car park with a service station and commerce facilities; removal of the residential houses is intended	connection to the operating utilities (gas, water and electricity supply, sewerage, driveway to the plot) is possible	abscent	93,6
79	3, Gorkogo str., Kosmodem'yanskoy, Lenin sq.	0,54	construction and maintenance of a multifunctional complex for trade, cultural, and entertainment use (without the right of allocation of gambling objects)	possibility of connection to existing engineering networks of gaz, water and power supply, driveway to the plot is possible through the operating road network	demolition of houses and uninhabited structures	976,5
80	10, Lenin sq	0.54	construction and maintenance of a multifamily house with trade and service enterprises, administration premises on the ground floor	possibility of connection to existing engineering networks of gaz, water and power supply, driveway to the plot is possible through the operating road network	demolition of houses and uninhabited structures	444,1
Pinsk district						
81	to the north-east of Zhabchitsy village, plot No. 2	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
82	to the north-east of Zhabchitsy village, plot No. 3	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	
83	to the north-east of Zhabchitsy village, plot No. 4	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
84	to the north-east of Zhabchitsy village, plot No.5	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4

85	to the north-east of Zhabchitsy village, plot No.6	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
86	to the north-east of Zhabchitsy village, plot No.7	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
87	to the north-east of Zhabchitsy village, plot No.8	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
88	to the north-east of Zhabchitsy village, plot No.9	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
89	to the north-east of Zhabchitsy village, plot No.10	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
90	to the north-east of Zhabchitsy village, plot No.11	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
91	to the north-east of Zhabchitsy village, plot No.12	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
92	to the north-east of Zhabchitsy village, plot No.13	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
93	to the north-east of Zhabchitsy village, plot No.14	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
94	to the north-east of Zhabchitsy village, plot No.17	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
95	to the north-east of Zhabchitsy village, plot No.18	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
96	to the north-east of Zhabchitsy village, plot No.19	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
97	to the north-east of Zhabchitsy village, plot No.21	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
98	to the north-east of Zhabchitsy village, plot No.22	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
99	to the north-east of Zhabchitsy village, plot No.23	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
100	to the north-east of Zhabchitsy village, plot No.24	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4

101	to the north-east of Zhabchitsy village, plot No.25	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
102	to the north-east of Zhabchitsy village, plot No.26	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
103	to the north-east of Zhabchitsy village, plot No.27	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
104	to the north-east of Zhabchitsy village, plot No.28	1	manufacturing facility	possibility of connection to power transmission line, asphalt driveway is available	abscent	4
Prouzhany district						
105	Prouzhany town, Internatsionalnaya str.	3	a manufacturing facility	sanitary sewer system 300, water pipeline 200 (along the Internatsionalnaya str.); high and medium pressure (159, 152) gas pipelines (along the Zavodskaya str.); distance to the motor road R-85 is about 200 m, to the railway station Oranchitsy - about 12 km, to the Internatsionalnaya street - 80 m; power line 10 kV	abscent	196,8
106	Prouzhany town, Internatsionalnaya str.	2,5	a manufacturing facility	sanitary sewer system 300, water pipeline 300 (along the Internatsionalnaya str.); high and medium pressure (159, 152) gas pipelines (along the Zavodskaya str.); distance to the motor road R-85 is about 200 m, to the railway station Oranchitsy - about 12 km, to the Pushkina street - 30 m; power line 10 kV	abscent	239
107	Prouzhany town, Makarenko str.	0,5	services	sanitary sewer system Ø200, water pipeline Ø100 (along the Makarenko str.); medium pressure (Ø114) gas pipeline (50 m away); distance to the Makarenko street is 330 m, to the railway station Oranchitsy - about 12 km; power line 10 kV	abscent	52,05
108	Prouzhany town, Makarenko str.	1,8	a manufacturing facility	sanitary sewer system Ø200, water pipeline Ø100 (along the Makarenko str.); medium pressure (Ø114) gas pipeline (50 m away); distance to the Makarenko street is 220 m, to the railway station Oranchitsy - about 12 km; power line 10 kV	abscent	187,38

109	Prouzhany town, Makarenko str.	0,7	services	sanitary sewer system Ø200, water pipeline Ø100 (along the Makarenko str.); medium pressure (Ø114) gas pipeline (180 m away); distance to the Makarenko street is 220 m, to the railway station Oranchitsy - about 12 km; power line 10 kV	abscent	72,87
Stolin district						
110	Stolin, Tereshkovoy str. (within the forestry area)	4	for construction of an industrial facility	there are water pipeline ø150 mm, sewerage system ø150 mm, electricity line 10 kV along the Mira ave., high pressure (ø219) and medium pressure (ø32) gas pipelines (20 m away); driveway	abscent	413,6
111	Stolin, Tereshkovoy str. (within the road servicing department No.26)	1	for construction of an industrial facility	water pipeline ø150 mm (along Mira ave.), sewerage system ø150 mm, electricity line 10 kV, high pressure (ø219) and medium pressure (ø32) gas pipelines (20 m away), driveway	abscent	132,5
112	Stolin Tereshkovoy str. (within the area of the automobile park No.12)	1	for construction of an industrial facility	water pipeline ø150 mm (along R.Zorge str.), sewerage system ø150 mm, electricity line 10 kV, high pressure ø108 and medium pressure, ø225 and ø273, gas pipelines (10 m away); driveway	abscent	113,6
113	Stolin, Mira ave.	0,2	for construction of a service provision facility	sewerage system ø150 mm, water pipeline ø100 mm, electricity line 10 kV, medium pressure ø63 and low pressure ø89 gas pipelines (20 m away); driveway	abscent	52,8
114	Radchitsky Village Council, 0,5 km to the southeast Radchitsk	42,6	for building an installation of 30 MW power blocks in case to use renewables energy of the sun.	The entrance is carried out on dirt road. The area is located in a security zone of the power line. East side of the area is 11 hectares in protective zone.	abscent	80,94
